# Midwest Regional Solar Yellow Pages

## FOREWORD

The Iowa Department of Natural Resources (DNR), with the help of the U.S. Department of Energy, is working to increase solar energy applications in the Midwest. This Midwest Photovoltaic and Solar Thermal Yellow Pages is a resource for individuals interested in incorporating solar energy in their home or business. The directory provides contact information on photovoltaic and solar thermal system manufacturers, retailers, designers, and installers located in Illinois, Iowa, Minnesota, Missouri, Nebraska and Wisconsin. The Yellow Pages also provide information on Midwest solar energy programs, incentives, net metering/interconnection status and educational resources.

There are two main types of solar energy technologies. 1) Photovoltaic (PV) technology converts sunlight directly into electricity. PV technology does not use the sun's heat. Instead, PV produces electricity directly from the electrons freed by the interaction of sunlight with semiconductor materials in the PV cells. 2) Solar thermal (ST) technologies harvest the sun's thermal energy to heat water. The heated water is stored in a separate preheat tank or a conventional water heater tank until needed. If additional heating is needed, it is provided by the conventional water-heating system. Less common, some ST systems heat air, which is moved by a fan through an air-to-water heat exchanger.

The directory is not comprehensive, nor does inclusion imply recommendation or endorsement by the Iowa DNR. Many of the entries in the Solar Yellow Pages were gathered through existing renewable energy directories; a section has been added with links to these other directories. Since the directory is not comprehensive, the DNR encourages businesses and organizations located in the states listed above to contact Dave Evans at 515/281-6150 or [dave.evans@dnr.state.ia.us](mailto:dave.evans@dnr.state.ia.us) to request inclusion.

The Solar Yellow Pages directory will be updated periodically and is posted on the internet at <http://www.state.ia.us/dnr/energy/MAIN/PROGRAMS/SOLAR/index.html> and <http://www.solarmidwest.org/>. The yellow pages are also available on CD-Rom free of charge. Contact Dave Evans at 515/281-6150 or [dave.evans@dnr.state.ia.us](mailto:dave.evans@dnr.state.ia.us) for a copy.

## Illinois

### **Advanced Energy Solutions, Inc.**

192 Gates Road

Pomona, IL 62975-2506

Phone: 618-893-1717

E-mail: [tech@advancedenergyonline.com](mailto:tech@advancedenergyonline.com)

Website: [www.advancedenergyonline.com](http://www.advancedenergyonline.com)

#### Services Provided:

Design, installation and retail sales of energy efficient products, solar electric systems and balance-of-system components.

### **CL Systems**

221 3rd Street

Crystal Lake, IL 60014

Phone: 815-455-4116

E-mail: [pwrdoc@mc.net](mailto:pwrdoc@mc.net)

#### Services Provided:

Design, installation, maintenance and retail sales of solar hot water, solar electric systems and balance-of-system components.

### **Habi-Tek**

524 Summit St.

Geneva, IL 60134

Phone: 630-262-8193

Fax: 630-262-1343

E-mail: [habitek83@yahoo.com](mailto:habitek83@yahoo.com)

#### Services Provided:

Design, sales, installation and service of renewable energy systems including balance of system components for solar electric, solar thermal, and presentations and consulting on energy and building/design and construction.

### **Homestead Specialties**

PO Box 47

St. Charles, IL 60174-0047

Phone: 630-584-8780

Services Provided:

Retail sales, design, installation, and maintenance of solar electric systems.

**Solara Systems**

58 North Cannonball Trail

Bristol, IL 60512

Phone: 630-553-1903

Fax: 630-553-7098

E-mail: [rsc380@yahoo.com](mailto:rsc380@yahoo.com)

Website: [www.solarasystemsinc.com](http://www.solarasystemsinc.com)

Services Provided:

Design, installation and retail sales of solar heating and solar hot water systems and balance-of-system components.

**Solar Service**

7312 North Milwaukee Avenue

Niles, IL 60714

Phone: 847-677-0950

E-mail: [info@solarserviceinc.com](mailto:info@solarserviceinc.com)

Website: [www.solarserviceinc.com](http://www.solarserviceinc.com)

Services Provided:

Retail sales, design and installation of solar heating, solar hot water and balance-of-system components.

### **Solergy**

4653 Lindbloom Lane

Cherry Valley, IL 61016

Phone: 815-332-7300 Fax: 815-332-7300

Website: [www.solergy.net](http://www.solergy.net)

#### **Services Provided:**

Retail sales, design and installation of solar hot water and PV panel systems.

### **Sunair Systems**

139 Perene Avenue

Byron, IL 61010

Phone: 815-262-2831 Fax: 815-234-2530

E-mail: [dmerrill7@Juno.com](mailto:dmerrill7@Juno.com)

#### **Services Provided:**

Design, installation, and retail sales of small solar energy systems. Also helps consumer apply for available incentives.

## **Indiana**

### **SunRise Solar, Inc.**

P.O. Box 53

St. John, IN 46373

Phone: 866-599-3566 Fax: 219-558-2211

# State Solar Electric Programs and Contacts

The following is a list of contacts specific for each Midwest state in this guide. For a more complete list, please visit the "Database of State Incentives for Renewable Energy (DSIRE)", a comprehensive source of information on the status of programs and incentives that promote renewable energy. The database tracks information on financial incentives, regulatory policies and awareness and investment programs and is accessible online at [www.dsireusa.org](http://www.dsireusa.org). DSIRE is an ongoing project of the Interstate Renewable Energy Council (IREC), funded by the U.S. Department of Energy's Office of Power Technologies and managed by the North Carolina Solar Center.

## Illinois

### State Energy Office

Illinois Department of Commerce and Community Affairs Bureau of Energy and Recycling

[http://www.commerce.state.il.us/dceo/Bureaus/Energy\\_Recycling/](http://www.commerce.state.il.us/dceo/Bureaus/Energy_Recycling/)

The Renewable Energy Resources Program is administered through the Illinois Department of Commerce and Community Affairs' (DCCA) Bureau of Energy and Recycling. The Renewable Energy Resources program fosters investment in and the development and use of renewable energy resources within the state of Illinois. This program provides rebate and grant funding for projects that increase the use of alternative energy technologies in Illinois.

## Indiana

### State Energy Office

Indiana State Department of Energy and Defense Development (OED)

<http://www.in.gov/energy/>

The Office of Energy and Defense Development (OED) was established to enhance Indiana's potential for links in energy and defense for economic development and

national security. The Energy Division of OED will continue to run the State Energy Plan (SEP) that establishes grant programs with money from the DOE. These programs promote alternative power, energy efficiency, biofuels, and educating Hoosiers about energy issues in our state.

**Indiana Utility Regulatory Commission**

[www.state.in.us/iurc/](http://www.state.in.us/iurc/)

The Indiana Utility Regulatory Commission's (IURC) mission is to assure that utilities and others use adequate planning and resources for the provision of safe and reliable utility services at reasonable cost. The IURC is a fact-finding body that hears evidence in cases filed before it and makes decisions based on the evidence presented in those cases. An advocate of neither the public nor the utilities, the IURC is required by state statute to make decisions that balance the interests of all parties to ensure the utilities provide adequate and reliable service at reasonable prices. The IURC regulates electric, natural gas, telecommunications, steam, water and sewer utilities. The Commission regulates various aspects of the public utilities' business including the rates, financing, bonding, environmental compliance plans and service territories.

## **Iowa**

**State Energy Office**

**Iowa Department of Natural Resources Energy and Waste Management Bureau**

[www.iowadnr.com/energy/](http://www.iowadnr.com/energy/)

The Energy and Waste Management Bureau is the state of Iowa's core agency for creating policies and programs that decrease its reliance on imported fossil fuels. This goal is accomplished by promoting energy efficiency and the use of renewable energy resources. Through a wide array of educational, financial and marketing programs, the Bureau is working to leverage new opportunities that save money, increase economic development and improve the environment.

For more information, contact:

**Iowa Utilities Board**  
[www.state.ia.us/government/com/util](http://www.state.ia.us/government/com/util)

The Utilities Board regulates certain electric, natural gas, telephone and water utilities in Iowa. The most visible of the Board's activities are the approval of rate levels and review of service quality. Other important activities include the approval and monitoring of utility energy efficiency plans, administration of the Dual Party Relay System and intervention in federal regulatory cases affecting Iowa customers. The Board and staff directly assist customers by providing information and investigating complaints. Staff specialists perform audits, analyses, and research and advise the Board on pending cases. Staff also conduct continuing inspections of utilities' facilities for compliance with safety and service quality.

### **State Energy Office**

#### **Ohio Department of Development Office of Energy Efficiency**

[www.odod.state.oh.us/cdd/oeo](http://www.odod.state.oh.us/cdd/oeo)

The Office of Energy Efficiency (OEE) works to promote the natural linkage of energy, economics and environment. Its efforts are designed to address the energy efficiency needs of those most impacted by higher energy costs, such as low- and moderate-income residents, small businesses and local governments. The Office concentrates its efforts in the commercial/industrial (including transportation), residential and education sectors. In addition to offering a wide range of technical assistance and training, the OEE administers a number of grant programs.

## **Wisconsin**

### **State Energy Office**

#### **Wisconsin Department of Administration Division of Energy**

[www.doa.state.wi.us/energy/index.asp](http://www.doa.state.wi.us/energy/index.asp)

The Division of Energy advises the governor and legislature on policies and programs for state and regional energy management, administers federal energy efficiency funds and develops and coordinates emergency energy policies and programs.

Analysts maintain up-to-date information on availability, use, prices, and regulatory issues for oil, gas, coal, renewable energy resources and energy efficiency techniques. The Division of Energy also houses a state energy information clearinghouse, which responds to public requests for information.
